2009 Commercial/Industrial & Area Lighting Efficiency Prescriptive Program Guidelines

Lighting Efficiency Measure	Customer Incentive
Replace \geq 400 watt HID with 4 lamp, 54W T5HO Fluorescent High Bay	\$75 per fixture
Replace \geq 400 watt HID with 6 lamp, 54W T5HO Fluorescent High Bay	\$75 per fixture
Replace \geq 400 watt HID with 6 lamp, 32W T8 Fluorescent High Bay	\$75 per fixture
Replace \geq 400 watt HID with 4 lamp, 32W T8 Fluorescent High Bay	\$75 per fixture
Replace 300-399 watt HID with 4 lamp, 54W T5HO Fluorescent High Bay	\$75 per fixture
Replace 300-399 watt HID with 6 lamp, 32W T8 Fluorescent High Bay	\$75 per fixture
Replace 300-399 watt HID with 4 lamp, 54W T8 Fluorescent High Bay	\$75 per fixture
Replace $<$ 300 watt HID with 3 lamp, 32W T8 Fluorescent High Bay	\$50 per fixture
Replace $<$ 300 watt Metal Halide with 6 lamp, 32W T8 Fluorescent High Bay	\$50 per fixture
Replace/Retrofit Incandescent Exit Signs w/ LED	\$10 per fixture
Replace/Retrofit T12, 4 lamp - 4' Fluorescent with T8 and Electronic Ballast	\$20 per fixture
Replace/Retrofit T12, 3 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$15 per fixture
Replace/Retrofit T12, 2 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$10 per fixture
Replace/Retrofit T12, 1 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$5 per fixture
Replace/Retrofit any 8' T12 with any 8' T8 or tandem 4' T8 with Electronic Ballast	\$15 per fixture
Replace \geq 400-watt MV Area Light with 250W HPS	\$40 per fixture
Replace 176-watt to 399-watt MV Area Light with 150-watt HPS	\$30 per fixture
Replace \leq 175-watt MV Area Light with 100-watt HPS	\$20 per fixture
Replace 150W incandescent with CFL - 150 watt equivalent	\$6
Replace 200W incandescent with CFL - 200 watt equivalent	\$6
Replace 250W incandescent with CFL - 250 watt equivalent	\$6
Replace 300W incandescent with CFL - 300 watt equivalent	\$8
Replace 350W incandescent with CFL - 350 watt equivalent	\$8
Replace 500W incandescent with CFL - 500 watt equivalent	\$10
Replace 600W incandescent with CFL - 600 watt equivalent	\$10

Qualifying systems include:

- Existing facilities only, no new Construction
- Only Commercial, Industrial, Municipal, and Institutional customers qualify for the new energy-efficient linear fluorescent fixtures
- All end-use customers qualify for area lighting and compact fluorescent incentives
- Utility-owned or leased mercury vapor fixtures qualify for upgrading
- Upgrade projects seeking more than \$5,000 in incentives require pre- and post-installation inspection by the utility
- Prescriptive program is intended for one-for-one replacements and retrofitting. Incentives will be paid on the lesser number of original fixtures or new replacement fixtures or retrofits

2009 Commercial/Industrial & Area Lighting Efficiency Prescriptive Program Guidelines

The following guidelines will generally apply. Exceptions will be handled on a case by case basis:

1. All replaced or retrofitted lighting equipment must be permanently installed.
2. Only Commercial and Industrial customers qualify for the new energy-efficient fluorescent fixture incentives.
3. All incentives sought that are \$5,000 or greater require a pre and post installation inspection to be conducted by the utility.
4. The 2009 Commercial/Industrial & Area Lighting Efficiency Prescriptive Program is a “one-to-one” program in that an equal number of lighting fixtures will normally be impacted when compared to the number of fixtures considered for retrofit or replacement. Only existing lighting systems qualify for the upgrade. No new construction. Incentives will be calculated on the lesser number of original fixtures or new replacement fixtures or retrofits.
5. Area lighting may be metered or unmetered.
6. Area lighting may be customer-owned or utility-owned (rental/lease).
7. An incentive will be provided to the person responsible for the utility account after the equipment is installed and operating. No incentive(s) will be paid without the completion of the application form. The application form must then be signed by the owner and installing contractor (if applicable). The completed application form will then be submitted to the electric utility for processing. Sales receipt(s) or invoice(s) itemizing the new equipment and indicating the size, type, make, model, purchase date, and vendor must accompany each energy efficiency incentive application.
8. The incentive payment or account credit to the owner will come directly from their local electric utility.
9. Perennial reserves the right to random spot check the performance verifications to ensure program compliance.
10. Participating electric utilities are those that are wholesale customers of Nebraska Public Power District.
11. Perennial will make final determination of program compliance decisions and reserves right to cancel the program with 30 days notice.
